

Next steps agreed at the GRPE/ISO group of experts meeting on liquid hydrogen onboard storage systems held on 26-27 September 2002 in Montreal, Canada

- The results of the meeting (GRPE/ISO document N017) are to be circulated to all the GRPE/ISO group of experts by Sylvie Gingras. We should not expect many comments at this point.
- Should there be any comments, the group leaders will consult and recommend a course of action.
- The changes that were agreed to (GRPE/ISO document N017) are to be incorporated in the GRPE draft regulations and the ISO draft standards.
- No other changes are to be incorporated in these documents, once this exercise is completed before the next GRPE ad hoc group meeting.
- The results of the meeting (GRPE/ISO document N017), the revised GRPE draft regulations and the ISO draft standards are to be distributed to the GRPE ad hoc group members one week prior to the GRPE ad hoc group meeting that is to be held on 14-15 November 2002.
